Overview

Product Details

The AD9530 evaluation board (AD9530/PCBZ) is a compact, easy-to-use platform for evaluating many features of the [AD9530](#). The AD9530 is a fully integrated integer-N PLL and distribution supporting clock clean up and frequency translation for 100Gb/sec optical transport network (OTN) applications. The internal PLL can lock to one of two reference frequencies to generate four discrete frequencies up to 2.7GHz.
